Diego Peña leads the Energy and Natural Resources practice and is a partner in the Regulated Markets practice. He is also a regional co-leader in DLA Piper's Energy and Natural Resources practice.

He concentrates his practice on advising local and foreign clients in various matters related to the Energy and Natural Resources area, providing advice on M&A processes and the development of different types of energy projects (natural gas, hydroelectric, wind, solar, and biomass power plants).

In the Projects and Infrastructure area, Diego has significant experience advising developers, operators, private investors, engineering and construction companies, banks, and financial and insurance institutions in the different stages and aspects of infrastructure projects developed in Chile and Latin America.

Diego also leads the area of Regulated Markets; his vast experience allows him to advise clients in sectors such as energy, telecommunications, and infrastructure in bidding processes, especially public and administrative procedures before different agencies, including applications for authorizations and sanctioning procedures, among others.
